The First Amendment

Diversities of Individual Fact

Some of us have precious little need for an identity, and can operate within and without all levels of ourselves and society.

There are diversities of individual fact. This is how and why I am able to accept those whose individual facts exclude others' individual facts. In this way, I am perhaps the most open-minded man in the world.

This is the ultimate test of fairness: Accept those who treat others unfairly. It is an individual of strong character who is able to *discriminate* and *accept* on totally subjective terms. Intellectual strength, above all else, is how one's worth is measured. Physical strength always proves itself inadequate for the survival of high quality. Just take a look at the world's dumb jocks.

Oppression

I am oppressed. This is how I am able to understand the plight of the oppressed individual. I know that *he too* oppresses others. Therefore, he should understand my plight as an oppressor. Neither, he nor I, are innocent victims nor innocent victimizers. He knows full well what he is doing, just as I do.

Oppression is the stimulus for progress. This important result is 100% positive. Any other kind of stimulus does not merit any worth. "Protest" is a *kind word* for oppression. We fail or win based upon the degree of intellectual strength we impose upon others. If we choose to crumble under oppression, then we are the inferior adversary.

Without oppression, life would cease to be interesting. The

wheels of progress would halt. We would not want to survive.
We would die.

I am the king oppressor of this world. I can make myself
invisible. My identity is not wanted. Attention paid to me is not
beneficial.

I sit in my lounge chair sipping a cold drink, being totally
content and self-assured- perhaps, smiling- perhaps, not.
World leaders are my willing puppets. World events are
curtains of smoke screens I use to my advantage. Headlines
are fanciful stories and actual events, which I concoct for my
own amusement, while picking flowers. A skid row bum may
perish, or nations may fall, because I push the right buttons,
as I scratch my behind. Your life is in my hands. I may know
your name- I may know your face- or not. You are the means
to my ends. I may even know what I'm doing. It doesn't really
matter. I am king.

It's funny what becomes ugly to a man. If a face is pulled out
from the nose, and pushed in at the chin, and hair is removed
from atop the head, and skin is wrinkled and turned black, and
all the teeth are made yellow and crooked, it becomes ugly. I
do not want a free society. I am not helping anybody. Anyone
who thinks I am helping anyone is a fool. I hate anyone who
reads my words. I hate you. I am for censorship. I don't give
a fuck about the First Amendment. There are obscene ideas
and people who should be censored. I'm obscene. You're
obscene. Every last one of us should be shut up. What's it
matter who does what? What's it matter whether I make up my
own laws or you make up yours? It's all so fucking random.
It's all the same. Survival is boring. Living is a re-run. What
anybody does doesn't matter. Achieve your goals: So what?
Fail: Who cares? Hate or love: It doesn't make a difference.
Useless. Useless. Useless.

Is this a dim view? Is this a revelation? Nope. Neither. I'm just another hatch-mark on the statistics. But, compared to you, I'm a fucking Cadillac- and you're just a tiny hatch-mark on my rear bumper. Your life is so dumb, that you don't even know how dumb you are. I could fill up the rest of this page with nonsense and you'd think it was interesting.

GET POWER

My smart friend committed suicide by jumping off a building. For all the genius that he was, he hit the pavement like a mindless dog. His carcass laid there in a motionless heap. He no longer spoke his wisdom. His brain would never think great thoughts again. Is this the way it is?

I wake up at 6 a.m. to catch a bus to go to be a guinea pig at a drug study for money. It snowed. The bus never comes. I go back home and lie in bed. I got up early for nothing. Outside, I can hear someone's metal shovel scraping + scraping against the pavement. Someone's car stereo is blaring. A car alarm goes off. I cannot sleep. I have no money. What will I do? Is this the way it is?

Mug, rape, and murder the right people. Mug the rich lawyers and their hoity toity bitch sluts who think they're such hot shit. Mug the poor people in the neighborhood who are easy targets. Go after the bosses + landlords, and the old ladies + little kids. These snotty fucks need to be cut down to size + humiliated. They deserve to be violated. Leave some sign of anger for them. Whisper in their ears, "You are all a bunch of pigs." Tell them to remember it - then cut off their fingers. Just cut them off and leave them in a supermarket somewhere.

FEAR. Rampant fear and panic are nice ways to get power. It will make you happy. Don't even take their dirty money - burn it right in front of their ugly faces, but take their fingers. Bring a gun + a knife. A gun to get them under your control + a knife for their fingers. Cut off their fingers with the knife. Make them scream + bleed.

ARE YOU AFRAID OF BEING WHO YOU ARE?

This is your world. It has been made NOT to be your world by diabolical Martian forces. Their actions are violations of your being. Their presence is an invasion of your soul. They are your enemies.

Do You Like Making Life Hard For Yourself?

Ever since I can remember, even as a child, I instinctively knew that *something* was wrong with the world around me. As a kid, I had many hopes and aspirations, as I'm sure you did too. I had that sparkle in my eye that said "This is my world and I deserve the best of

everything". My hopes and aspirations were smashed by every conceivable means in every conceivable way. At a very early age I felt agonizingly hopeless and totally alone. Terrible things happened to me. I looked around and all I saw was pure unadulterated horror. I was force-fed lies by my parents, my school teachers, and by my peers. Anytime I spoke the truth I was reprimanded. Whenever I showed any sign of awareness I was punished. I was mentally tortured and physically beaten by most everyone around me. Sound familiar? I was *even* beginning to get used to their abuse. *But still*, I refused to submit to their pervasive dull ignorance. I could see past their shallow attempts at deception as they tried to manipulate me. At a very early age I felt homicidal, but told no one. Around this time I made a discovery: I was o.k. *but everyone else was WACKO!* With this discovery came connections to others like myself. What was happening to me was, for a time, beyond my comprehension. I knew that there had to be some explanation for why I was an outcast. Slowly, the hideous pieces to a twisted puzzle started to fall into place. I now know what the frightening, horrible truth was: that *my enemies* were not Human. At first, it was impossible to consider it... then it was impossible to ignore: *I was living amongst Martians.*

Liebestod

Love Sucks

No, I don't believe in love at first sight because love is an evil plot to make people buy alcohol and firearms. When you love someone something it is always taken away from you. I also would like to add that I hate each and every one of you. Because everything I touch turns to shit. I think if you think you fall in love with someone at first sight it might just be lust. Love at first sight is only in movies. Where the people in the movies are better than you. That is why you go to a pawn [pawn] shop and buy an AK-15 because you are going to execute every last mother fucking one of you. If I had a heart it would be gray.

It is easier to hate than love. Because there is much more hate and misery in the world than there is love and peace. Some people say that you should love everyone. But that is impossible. Look at our history it is full of death, depression, rape, wars and diseases. I also do not believe in love at first sight. But I do believe in hate at first sight. Therefore love is a much harder feeling to experience.

I really wouldn't know how to answer this question because my cold black heart has never and never will experience true love. I can tell you one about love. It does more harm than good. I plan to live in a big black hole. My firearms and [illegible] will be the only things to fight my isolation. I would also like to point out Love is a horrible thing. It makes things kill and hate.

I sit here all alone. I am always alone. I don't know who I am. I want to be something I can never be. I try so hard every day. But in the end, I hate myself for what I've become.

"You all make me sick. I wish I was dead."

Every single person I know means nothing to me. I hate every person on this earth. I wish they could all go away. You all make me sick. I wish I was dead.

The only reason I stay alive is because of hope. Even though I am repulsive and few people know who I am, I still feel that things might, maybe, just a little bit, get better.

I don't understand any fucking person on this earth. Some of you are so weak, mainly, that a four year old could push you down. I am strong, but my head just doesn't work right. I know I should be happy with what I have, but I hate living.

Every time I talk to her, I have a small amount of hope. But then she will tear it right down. It feels like my heart is breaking. But is that possible. I am so consumed with hate all of the time. Could I ever love anyone? I have feelings, but do I have a heart that's not black and full of animosity?

I know everyone thinks this way sometimes, but I am so full of rage that I feel I could snap at any moment. I think about it everyday. Blowing the school up or just taking the easy way out, and walk into a pep assembly with guns. In either case, people that are breathing will stop breathing. That is how I will repay all you mother fuckers for all you put me through. I feel like everyone is against me, but no one ever makes fun of me, mainly because they think I am a psycho. There is one kid above all others that I want to kill. I want nothing more than to put a hole in his head. The one reason I don't: Hope. That tomorrow will be better. As soon as my hope is gone, people die.

I ask myself why I hate more than anyone else. I don't know. But my head and heart want him dead. He only knows who I am through reputation, and I know he is scared of me. He should be. One day day, and there will be a sawed off shotgun in his face or five pounds of Semtex under his bed.

I need help. There is one person that could help, but she won't. I need to find someone else. I think I love her, but she could never love me. I don't know why I try.

"Killers start sad and crazy"

Oh fuck. I sound so pitiful. People would laugh at this if they read it. I hate being laughed at. But they won't laugh after they're scraping parts of their parents, sisters, brothers, and friends from the wall of my hate.

Please. Someone, help me. All I want is something small. Nothing big. I just want to be happy.

End. New day. Today of all days, I ask her to help me. I was shot down. I feel like my heart has been ripped open and ripped apart. Right now, I'm drunk, so I don't know what the hell is happening to me.

It is clear that no one will help me. Oh God, I am so close to killing people. So close.

I gave her all I have, and she just threw it away. Why? Why did God just want me to be in complete misery? I need to find more weapons. My parents are trying to away some of my guns! My guns are the only things that haven't stabbed me in the back.

My eyes hurt. They hurt so bad. They feel like they are trying to crawl out of my head. Why aren't I normal? Help me. No one will. I will kill every last mother fucking one of you. The thought of you is still racing in my head. I am too drunk to make sense.

Every time I see your face, my heart is shot with an arrow. I think she will say yes, but she doesn't, does she? She says, "I don't know". The three most fucked up words in the English language.

I want you to feel this, be this, taste this, kill this. Kill me. Oh God, I don't want to live. Will I see it to the end? What kind of dad would I make? All humans are evil. I just want to end the world of evil.

I don't want to see, hear, speak or feel evil, but I can't help it. I am evil. I want to kill and give pain without a cost. And there is no such thing. We kill him - we killed him a long time ago. Anyone that believes in God is a fucking sheep.

If there was a God, he wouldn't let me feel the way I do.Love isn't real, only hate remains. Only hate.

Dead Whore

Bianca Brust

Bianca S.

Bibi

I remember this case. He posted the pictures at the Life of Debauchery forum, 20 of them, on a thread called "Dead Whore". They're not there anymore, they were removed that same night by Matthias himself after the forum moderator asked him who he was. Everyone was talking about whether the pictures were fakes or not. While Matthias set his place on fire and went out with the head. When he found the police after him, just sped up and crashed against a truck.

It gets weirder. Bianca Brust (why we always remember the names of the killers and not the victims...) was a medical assistant (a nurse?) and the doctor who was called to both scenes knew her. I guess it was quite a shock.

Fuck yeah i admit it. I was looking at her breasts. I would have gently licked and sucked those milk duds if given the chance:/ now theyre off limits forever.

It was a little past my bedtime when i wrote that too. I probably shoulda clicked on the pic and looked closer(i use my phone to browse. Its got a HUGE screen.) But yeah i found it odd that she chose to wear sexy boots over to a creepy guy's house. Doesnt seem very typical.

Trooper72 says:

August 9, 2012 at 11:45 am

I am just wondering what the fuck is up with her pelvis.

daweeka says:

August 9, 2012 at 12:30 pm

Tom,

First, of course you could watch, even participate, lol. However, it would require a pulse rate, something about a dead lay in this case, would turn me off somehow. Remember, a guy can orgasm with anything, even liver would do. But a woman, on the other hand, requires participation. I must revise my original post, I was speaking about that being the perfectly wonderful sexy woman to have sex with, however, she must have a pulse rate, and a body

temperature of 70 or so degrees. I also could do without the headless, as the head would be a great asset to a blissful outcome. See, the more I talk the more people become aware of how much of a degenerate, closet slut I am, haha. Even more shocking is that it's been four years since I've been with a man. My reasons for this are aplenty. Anyhow, I am thinking that the body has begun it's typical hardening, the blood flow has stopped, and has begun to settle, leaving the limbs to stiffen and the skin to peak, as happens when one dehydrates, so if he were to have pinched a spot, it likely either would have taken a long time to un peak or would remain in that position for a long time. It seems he took these pictures shortly after the murder, her body still has lots of color and is still somewhat flexible. I think he truly was in love with her, which is why he didn't rape her, and his suicide, was more out of his misguided love, and not out of hate, as he had her head with him and killed himself. Contrary to what some may think, I believe that he really wouldn't have wanted to live without her, rather than not face the consequences, those I believe were the last thing on his mind. My opinion only....Now where is my hijab....damn....

daweeka says:

August 9, 2012 at 12:32 pm

I really wanted to send you a picture, but to maintain my modesty, I must send you one that has me fully clothed to the ankles. I am sure I have it around somewhere, give me a few hours and I'll find it... ☐

Trooper72 says:

Is a dead pussy like rigor mortis and stiff or can you have some fun and squeeze in her slit while
it's still warm and cosy? I mean who would miss out on a tight pussy?

Drats!

I was going to enlighten y'all as to the definition of Carpe Noctem.

Never mind.

She certainly was a beautiful woman... As for her boobies. Perfect.

Maybe too beautiful? You do find that the more Blonde a woman is... The more up her own arse she gets.

Not that I have a particular preference in Hair Colour. Just I think it a uniting feature amongst Blonde ladies that they are too effeminate and up themselves.

I am stereotyping massively. But it is my experience that Blondes aren't as 'up for it' as Brunettes.

I went out with a Mouse Blonde girl once... Proper filthy little tart. Not afraid to swallow copious amounts of the DEMONSEED. She was the exception to the rule.

daweeka says:

August 9, 2012 at 3:40 am

Wasn't she ever a hottie, damn, I wish I knew how to photoshop. I would take her body, and attach it to my face...lol.

SpankmyMonkey says:

Trooper72 says:

August 9, 2012 at 7:31 am

Here, here Spanky!

killajamal says:

August 9, 2012 at 8:06 am

@spanker

I must agree. I somehow got one of the "hottest" women i know to makeout with me and take off her clothes. (when i say she's hot i mean that shit) Only to realize that her body was no fun. It was too toned. Nothing to squeeze or suck. I couldnt even keep my dick hard. I left with a limpstick.

I have however been turned on as fuck by certain women that id never expect. So i dont discriminate when it comes to the darlings!

daweeka says:

August 9, 2012 at 3:53 am

Dammit Tom, I've missed you.

Swallowing demonseed, hmmm. I have known of women that could do that right at the beginning of a relationship. I could never bring myself to do that. If however my partner/fuck buddy is someone I want to keep as a monogamous playmate, then my inner slut comes out full force.

I tried going blond, but I wound up looking like a long haired version of Ronald McDonald, actually, probably more like that Aurora shooter. I have since decided to maintain my hair in it's original shade, as it seems to be more suitable to my mug. Anyhow, again, nice to see you again. It's ba-a-a-ack....oh and I'm waiting for that picture..

LaBomba says:

August 9, 2012 at 6:53 am

I'm naturally blonde and I will try/do anything to please my partner, but as Daweeka had mentioned I'd have to keep them around for a while if they wanted my special treatment:)

Trooper72 says:

August 9, 2012 at 7:30 am

Prove me wrong LaBomba!

I remember from a couple of posts back that you do fancy a lad with... Peculiar sexual tastes.

I dislike girls who are adamant in not trying anything adventurous. I had. One GF that refused to do anything except missionary... No oral.. Nothing. She was gone within a month.

Yeah Lisa! I will be commenting a bit more now... Although I doubt it would be at the levels I was doing it at before...

She is cyberbullying me for dirty, dirty pictures! Haha.

LaBomba says:

August 9, 2012 at 8:00 am

Indians (Including Pakistanis and Bengalis) are better off being Buddhists, Christians, Sikhs and Hindus.

I have no problem with those religions.

And if India can't overcome it's Islamic siege... All of Asia will be doomed to the scourge of Mohammedism.

Iranians are similar... Their brand of Shia Islam is the best of a bad bunch... Although I once heard of an Islamic sect in Russia called 'Jadidism' which rejected Jihad.

It is the Sunni Scum that I hold most of my vitriol for.

Ahhh so true my friend.

Life became much simpler when i woke up one day and realized "there's at LEAST 3-4 billion women in this world. 1 billion of whom must be around my age(yes even GILF's count) that are ripe for the pickins and if one turns me down, FUCK IT!" When i took on those truths and applied them to my life, i aquired a whole new set of skills. Well maybe just one skill. The skill to walk up to the sexiest women on this earth and with a big smile, hug them, tell them theyre a babe, ask if theyd like to kiss and then after the kiss i introduce myself. Good shit.

FleshyVirus says:

killajamal says:

August 9, 2012 at 9:04 am

Hahaha damn straight.

I dont really fuck da bitches. But i do know what you mean. If youre gonna frisk em up, gotta do it up right! And if they happen to suck on your weener, while theyre doin it you gotta say "Mmm you like that??" Haha because theyll answer yes just to be nice. But after saying they like it 3-4 times theyll start thinkin they really do enjoy it! Ha! Yes i know im practically the most evil person in town>:D

Tulio_Hermil says:

August 9, 2012 at 8:40 am

when I was a shy teen, one of my father's best friends told me something that could be roughly traslated as this : "you go to a pub or nightclub, pay your drink, the entrance fee, watever, and from there, all you can bounce with the women is fuckin free, so cheer up"

killajamal says:

August 9, 2012 at 8:57 am

@tulio

Ahhh words of the wise!

You, me and a few others seem to have this shit figured out.

I always think its funny when a guy tries to buy a girl a drink so he can fuck her. Fuckin stupid. Do they really not realize that theyve been offered 50 drinks already!?? To her, thats just one more average encounter with a sucker. If you wanna excite a woman, do something she's never seen before. Even if it's fucking dumb. (Sometimes they cant tell the difference because theyre too busy saying "omg wtf thats intriguing lol.") My favorite is to just start shakin your ass on them. If they have this dear-in-the-headlights look on their face you know its working. Haha.

Shit, at least tell her she wore too much makeup. Thatd even be a step up from what the guys usually say with their "damn girl you lookin fine tonight" bullshit.

Tulio_Hermil says:

August 9, 2012 at 9:07 am

I had a demented friend who dedicated poems to chicks in nightclubs. As WTF as it may sound, the guy actually picked up women like a fucker, combined (of course) with an iron will to try and try again.

My personal preference was to try ridiculous pick up lines that would come to mind in the moment. One time i tried to impersonate a seminar drop out (thats where the catholic priests study to become priests) looking for a female who would teach me how to navigate the turbulent seas of flesh, or something. Blame the whisky

killajamal says:

August 9, 2012 at 9:15 am

Hahahaha youre totally right! I said what the fuck when i read that. Maybe ill have to brush up on some poetry. I guess anything works as long as you do it with confidence. Shit, i saw a cute girl walking by and i physically picked her up, carried her back into where i work and got her number. You can get away with anything with a smile on your face.

Hell yeah! Did any of the ladies ever accompany Father Tulio back to his lovecastle!?? That woulda been an easy way to get them to wear a sexy nun outfit.

Tulio_Hermil says:

August 9, 2012 at 9:36 am

At that time, father Tulio (and his demented poet friend) both lived with his parents (in spanish and italian culture countries, single guys tend to keep living with their parents until 30s, a phenomom called "MAMMONI").

That wasn't an obstacle for Tulio's demented friend as long as he could get to his room without waking up his heavy anxiolitic drugged parents and lockin up the door. Some bitch once wanted to hear music and he couldnt put it to not wake up his parents so he plugged a walman into her ears while he banged her doggystyle, hahahah.

Tulio did not dare to do that, but he still fucked a couple of foreign chicks with his sisters sleeping in the others rooms (mommy and dad werent home) . Ah good times

killajamal says:

August 9, 2012 at 9:48 am

@tulio

Are you italian??

Ha! Im not 30 but i fuckin live at home. Thats where its at. Im savin up to put a downpayment on a house. Living rent free is awesome.

Holy fuck i think i might have pee'd a bit when i read about the walkman. Thats fucking amazing. What a demanding bitch! "I need music to orgasm." Really? Hit the road babe! ☐

Tulio_Hermil says:

August 9, 2012 at 9:56 am

im from buenos aires , argentina, but its kinda the same deal. I also hold the italian EU double citizenship (they just give it to you for having an italian granddaddy, surname, and looking italian, its funny the italian state has the same requisites for making you a citizen that the mafia for "making" you, hahaha)

Right now im studying in america fuck yea (VA) so Im still figuring out how the pick up thing works in this little nice town

killajamal says:

August 9, 2012 at 10:12 am

I gotcha. Fuck that'd be nice to just travel between countries no problem.

Oh shit. VA huh? Things are a lot different there than the part of the US where i live. Im not sure if the ladies are equally as accepting of our little tricks there or not.

Id just tell them your foreign. Your penis will magically become a magnet.

Tulio_Hermil says:

August 9, 2012 at 10:18 am

so far, for a little university town (50.000hab charlottesville) chicks are quite good. You just have to ignore the 20% of standard obese things typical of america.

I promised baked that I would elaborate with my pick up experiences the theory I just drafted the other day, that you can tell if an american chick will fuck you by the way they say HI, as the HAAAIIII or HAAAQOIIIEEE allows for much more singing bird like variations than the boring monotone spanish HOLA , for example.

FleshyVirus says:

I bet since he was "in a band" she probably liked the attention and possibly lead him on. Even though he looks like a fucking troll. Was he that hard up?

Those are some spiffy pictures though.. Especially where she's sitting up-right and the one with her head wearing the sunglasses.

Time to stop putting the pussy on a pedestal!

I'm a lonely black metallor too. Except, I usually have better sound quality and I'm a softie. When I get dumped, I'm usually friend zoned, and I take it well. Be supportive, go shopping with them, that kinda shit. I could never do this

These type of murderers are the biggest pieces of s**t ever.To destroy this woman just because she turned him down, only to then kill himself (most likely realising what he's done and s**ts himself at the thought of prison or coembacks).

Wish of his friends just took him to one side and said 'Look mate, here's the thing with asking a woman out on a date. If your a big fat hairy f**ker who looks uglier than road kill, then its obvious the ladies aren't going to go for you just off general appearance alone'. 'Have a shave and lose about 4 stone you fat f**ker and then get a hair cut, and just watch as the ladies start knocking on your door'.

What don't do is take a f**king hatchet to her head you fat hairy stinky s**t band playing pile p**s rage ginger beardy b*****d self loathing coward f**k nut with a face that makes Rocky Dennis look pretty.
